SUMMARY

To associate with progressive organization that gives me scope to enhance my skills according to latest trends and to be part of team that works dynamically towards the growth of organization in the field of Quality Assurance Management

Skills

- Team Management
- Analytical Skills
- Problem-solving
- Communication skills
- Innovation

Languages

- ENGLISH
- HINDI
- MALAYALAM
- TAMIL

Certificates

HACCP Level 3 for Food manufacturing (High eld International UK)

ISO 22000:2018

food safety supervisor Advanced level (fostac)

HACCP Awareness Cum-Implementation Programme

Intrest

- Quality assurance
- Research
- HACCP
- Food safety
- Foodprocessing

Experience

SUPERLION BEVERAGES
PVT.LTD,COCHIN, KERALA

MAY 2023 - October
2024 (1 Years,7
Months)

QA/QC

- Monitor inventory levels of lab supplies, reagents and other materials needed for microbiology and chemistry lab operations
- Make a decision on product release or hold based on quality standards
- Implement and monitor HACCP for hazard control production
- Provide training to new employees on proper handling of both labs
- Coordinated with external vendors for calibration service as needed for instruments
- Supervise and coordinate the activities of workers engaged in operating and maintaining equipments in water treatment plant, direct activites of workers engaged in filtering,chemically treating, pumping and testing fresh and processed water for human consumption as well as industrial use
- Daily inspection done on production line, monitoring workers hygiene and documents maintained
- Thoroughly inspect raw materials, ensuring consistency and integrity for conformity with our standards and specifications
- Made Recommendation on company policies, process and procedure based on audit result

AMRUTHA DRINKING WATER
PACKING UNIT, COCHIN, KERALA

Jul 2017 - Jan 2021
(3 Years,6 Months)

QC MICROBIOLOGIST

- Perform routine microbiological testing of raw materials, in process and finished product according to established procedure
- Maintain accurate records of all laboratory activities, including sample collection, testing results and corrective action takes
- Implement corrective action plans when required due to non conformance issues
- Evaluate microbial contamination levels in manufacturing area using swabbing techniques
- Ensure all the laboratory personnel are following proper safety guidelines while working with hazardous materials
- Prepare monthly reports summarizing findings from microbial testing programmms
- Reviewed product specifications and determined appropriate test method for assessing microbial quality parameters
- Conducted sterility test on microbial devices and monitor the environmental conditions during the process
- Verify the accuracy of test results by conducting repeated analysis when necessary
- Develop standard operating procedure for laboratory operation and quality control processes
- Participate in internal audit to evaluate the effectiveness of current practice related to microbiological operations
- Investigate customer complaints regarding potential microbial contamination issues

CO-OPERATIVE MEDICAL LAB,
COCHIN, KERALA

Oct 2016 - Apr 2017 (0 Years,6
Months)

TRAINEE MICROBIOLOGIST

- Detection of microorganisms from various clinical samples
- Media Preparation, plating and isolation of microbes
- Immunological and Hematological test
- Blood grouping ESR
- Clinical biochemistry test

Education

MG UNIVERSITY

BACHELOR OF SCIENCE MICROBIOLOGY

75%

Sep 2013 - Mar 2016

VOCATIONAL HIGHER SECONDARY

BOARD OF EDUCATION

PLUS TWO- SCIENCE 80%

Apr 2011 - Jun 2013

Projects

ISOLATION AND IDENTIFICATION OF ECOLI AND KLEBSIELLA BACTERIA
FROM AQUARIUM FISH

Instruments handled

- Autoclave
- Hot air oven
- Incubator
- Laminar air flow
- Microscope
- Membrane filter
- PH Meter
- TDS Meter
- Spectrophotometer
- weighing balance

Declaration

I here by declare that the information furnished above is true to the best of
my knowledge and belief
